All means of in-house collection have been exhausted and it has been determined that these accounts are truly uncollectible, and any further action on behalf of EMS Billing would be unproductive. The process includes reporting an adverse credit rating that could provide additional leverage for the collection agency to attempt collection on these accounts. Each patient has received three invoices prior to receiving their notice of the pre-collection letter. Each account will be referred to the secondary collection agency in which the outstanding balance will be listed as an outstanding debt with all three credit reporting agencies.

In Fiscal Year 2021/2022, Public Safety will be presenting bad debt write-offs on a quarterly basis at the request of the secondary collection agency to adequately staff their workers according to our needs.
